

Goat and Sheep Farm Management Seminar in Israel

Welcome to Israel and our Goat and Sheep Farm Management Seminar

Since the beginning of time farming of sheep and goats has followed traditional methods. As farmers attempt to progress to a more modern technique of sheep and goat farming, the need for professional know how becomes apparent. Commercial production of goat and sheep milk is dependent upon sound decision-making processes in relation to routine husbandry, nutrition, reproduction, group location, culling and drying. Our seminar will introduce you to the small ruminants sector in Israel. You will learn about intensive and semi intensive small ruminants farming and discover how to improve your herd. A further area of focus includes management tools, specifically relating to herd management, nutritional management and more.

While staying in Israel, in addition to attending the seminar, you will be exposed to the rich Israeli culture and ancient cities through sightseeing tours with a professional guide—an experience not to be missed!

At the end of the seminar, you will receive a certificate of completion.

We are pleased to welcome you to Dairy School, the Israeli Experience
